MISS M. A. BUIE, SO FAVORABLY KNOWN during the war as the "Soldier's Friend," is engaged in the attempt to found a School for the orphan children of Southern Soldiers. OBJECTION 1. c

I'M TOO POOR; I CAN'T AFFORD IT.

ANSWER.

If you are too poor to save less than half a dollar per week, at from 30 to 35 years of age, or proportionately at other ages, and find it so difficult to do so—should you be taken away by death, how bitterly poverty will strike home to your widow and children, or those dependent on you! Is it not worth a struggle to avoid this, and give them at least $1,000 by paying so small a sum? *It costs just $2,00 per month to insure $1,000 at the age of 32 years.*

OBJECTION 2.

I've talked to several of my friends, and they all advise me to have nothing to do with it.

ANSWER.

Will your friends undertake to provide for those you leave behind, in case you do not live long enough to save money? Ask them, and be guided by their answer.

OBJECTION 3.

I can't make up my mind; call again.

ANSWER.

Your other objections have been answered. I appeal to your own common sense to answer this for yourself, aided by

THREE PRACTICAL REFLECTIONS.

FIRST.—Nothing is so uncertain as Life.

SECOND.—No provision is perfect that is contingent upon the duration of your Life, which is not immediate.

The Fall Session of this Institution closed 23rd. day of December. The Spring Session opened the 1st. Wednesday in January, and will continue 20 weeks.

The success of this school has been without a parallel. A new building has just been completed, by which a large additional number can be accommodated. We are determined to make our pupils as comfortable as they can be made anywhere, and to afford them all the advantage for a thorough and extensive education, that can be found at any First class Female College, North or South.

The location is a most delightful one. The Mineral Water is too well known to the whole country to need a remark. Even invalid young ladies may secure a thorough education, and at the same time the restoration of their health. Reference is made to every intelligent Physician in the State, as well as to the hundreds who have found relief here.

The young ladies all worship in the College Chapel, and hence no extra clothing is required. *In the single item of dress parents can save 25 per cent. of the entire expense incurred by sending to Boarding Schools located in cities or villages.* This Institution is certainly one of the cheapest and most easy of access in the Southern States. Besides, it offers the most superior advantages in every respect.

A PROPOSITION.

IN WHICH YOU ARE INTERESTED.

I PROPOSE for the protection of the citizens of Raleigh and surrounding country, against the imposition of those so-called Cost Stores, to furnish each and every person, the New York Cost of any goods they may want to buy; by this means they can tell whether they are buying goods at Cost or paying a profit on them.

Call before going to any of those Cost Stores so-called, and let me give you a memorandum of Cost prices.

Most of my large stock I will sell at cost but I have goods that I will not sell in that way, and neither will those merchants who make such a flourish about selling at Cost.

No merchant in this place has purchased his Goods any cheaper than I bought mine. Any assertion to the contrary is *false*; and I will guarantee to sell Goods as *low as* any Cost House. All I ask is an opportunity to prove the truthfulness of this assertion.

AN INVALUABLE DISCOVERY,
BY WHICH
Water can be Turned into Money.

Truly has it been said, "That the riches of this world, lie buried in the bowels of the earth." The precious metals that are daily taken from thence, readily procure all the luxuries and comforts—save, the great boon to the sick, Health—without which, life is a burden, and the millions of the Rothchilds' would fail to secure.

To females suffering from Leucorrhœa, (or Whites, as it is commonly called,) I, as a Physician of many years experience, would say, that you need not longer endure a miserable life of pains, aches and general debility, or weakness, the consequence of this deplorable disease.

All Physicians, of modern teaching, will admit the great difficulties in arresting this destroyer of health, for various reasons unnecessary to mention. Patients suffering therefrom will as readily agree, that medicines, however carefully prepared and used fail, in most instances, to afford relief; and in many, from long continuance, produce debility, thereby increasing the malady they were expected to relieve.

Deeming it a great privilege to be a public benefactor, and add to the comforts of the afflicted, by placing before them means of relief, I here give the history of a few cases of great interest that have fallen under my professional care.

Mrs.———, a lady of the highest standing in the city of Charlotte, N. C., had been an incessant sufferer from Leucorrhœa for three years. Her cheeks were blanched, her skin always cold and almost transparent—in fact she seemed not to have a red corpuscle in her body. So weak was she, that it was with great difficulty she could ascend a flight of stairs, without feeling faint and exhausted. Palpitation of the heart, head-ache, and a dizziness in the head, besides excruciating pains in the back, together with a bearing-down sensation in the region of the womb, were constant and alarming. Notwithstanding they were but symptoms of extreme debility, induced or kept up by the never ceasing drain from her system. In this condition, every means at my command was used for her relief. Remedy after remedy was tried. Every means recommended by our modern authors proved worthless in her case. Hearing of the case of a servant, whom I had formerly treated, (belonging to Mr. Cross,) having been very much benefitted by this mineral water, I resolved, (without further inquiry,) as the last resort, to recommend to her its use. Anxious to be restored once more to health, she readily acceded to my proposition, and visited this well daily. Soon improvement was visible, and in the short space of three months her health was entirely restored. A living monument to the great curative virtues of this water.

The next case of great interest is that of the servant woman already spoken of. Seven years previous to the discovery of this well, Mr. Cross engaged my services in the care of this woman. I made most careful examination and searched out all of the particulars of her history. She had suffered for 18 years with Leucorrhœa, and being sorely afflicted therefrom, it was universally known in our community, that she was the martyr of the town. I found her with all of the distressing symptoms attending this malady, and could only afford her temporary relief. Time passed on, and still her afflictions did not abate. She abandoned all hope of recovery, and resolved to take no medicine, but to resign herself to the fate which seemed to await her. Her master just then having discovered this well, advised that she should drink freely of the water, as it might be of some benefit to her. Like a drowning man catching at straw, she tried it, and improvement was soon perceptible. Perseverance was crowned with success, and this day she is a strong and healthy woman, and can be seen at the residence of her former master, and will take great pleasure in relating, *in detail*, to any visitors, the history of her case.

Many other cases known to us, of equal interest, have been cured, and others are being daily benefitted.

It is to be regretted that the pecuniary embarrassments incident to the late war precludes the idea, of Mr. Cross' fitting up this valuable property, as a resort for invalids. Under these circumstances, the owner (Mr. George Cross, of Charlotte, N. C.,) is willing to dispose of his property at the very reasonable price of $10,000 in U. S. currency, and will communicate with any one either by letter or personally.

The plantation of 100 acres of fine and productive land is situated within one and a half miles of the city of Charlotte, N. C., immediately on the Wilmington, Charlotte and Rutherford Railroad. A fine residence, with modern improvements and conveniences, together with all necessary buildings attached, have just been completed, and to capitalists seeking investments no finer inducements could be offered.

FOR THE CURE OF DYSPEPSIA, DISORDERED Digestion, Flatulency, Sluggish Circulation of the Blood, Bilious Complaints arising from a morbid condition of the Stomach and Bowels. An Elegant Tonic in debilitated states of the Digestive Organs, or of the system generally. For the loss of appetite it is the most wholesome and effectual Tonic in the world. It strengthens nature and enables the system to triumph over disease. In wakefulness attended with tremors and general nervous derangement, it is peculiarly adapted; giving strength and tone to the nerves. To delicate Ladies and Children it is invaluable—and in fact wherever a pleasant and agreeable Tonic is wanted, this should be used.

Dr. Johnston B. Jones, one of the most scientific and well known Physicians in the Southern States, testifies to its great value, besides many others who have been greatly benefited by the use of these Bitters.

THE SENTINEL.

WM. E. PEAL, SEATON GALES, } Editors.

Thursday Evening, Feb. 21, 1867.

Sherman's Bill Passed the Senate.

By a private telegram to Mr. Holden, we learn from the *Standard* Extra, that the Senate has passed the Sherman bill with the House amendments, by a vote of 31 to 7.

Col. Cowan's Speech.

We regretted much our inability to be present last night, to hear the able speech of Col. Cowan in defence of the credit of the State. We learn that it was characterized by great force and power and presented the subject with such clearness and aptness, as to convince all who listened to it, of the force of the obligation resting upon the people of North Carolina, not only to maintain the public credit of the State, as an imperious moral obligation, but one demanded by the future safety and prosperity of the State.—He showed conclusively also, that the recovery of our former State credit and the high character North Carolina had borne, that present action and the initiation of the plan of taxation at once, could alone accomplish that. He demonstrated that, notwithstanding the heavy pressure upon our people and the immense difficulties which environed them, that under the system of taxation embraced in the present Revenue bill, they were able to begin now, or at least at the close of the present year, to begin to pay such a tax as would meet the State's interest on her public debt.

Owing to a too hasty glance on yesterday, at his report and bill, we find that we were altogether mistaken, as to the increase demanded upon the present Revenue bill, in order to pay the State's interest. That bill only fixes one-tenth of one per cent. *ad valorem* tax upon property, and a correspondingly low tax in other respects. Now to meet the interest on the State debt and to pay the ordinary expenses of the State government, the bill introduced by Col. Cowan from the Committee of Finance, proposes to double the poll tax, which would be one dollar, "and on all other persons and subjects of taxation, the rates for the year 1867, shall be twice, and thereafter, three times those imposed by the Revenue bill passed by this General Assembly."

Col. Long, we learn, replied to Col. Cowan. We presume that he based his opposition to the bill, chiefly upon our inability to pay the increased tax proposed, as we are sure Col. Long is deeply interested in maintaining the credit of the State, and could not object to the proposed plan, if he felt or knew it was in the power of the people to meet it.

National Intelligencer.

The noble defence which this paper has made of the Constitution and of civil liberty, entitles it to the largest patronage of the South. Its purpose is to commence about the first of March, a full report of the principal speeches made in both Houses, in defence of the Constitution and the South, as well as some from Radical sources. They will be found in the tri-weekly and weekly as well as in the daily issues of the *Intelligencer*. This will be a good time to subscribe. Daily $10, Tri weekly $6, and the Weekly $3 per annum.

SUNDAY TRADING.—We learn that the Mayor is limited by the ordinance to fine a person for selling merchandise or spirituous or malt liquors $10. It has been suggested to us that our article on this subject the other day, is liable to misconstruction, and that our neglect to name the parties offending, may lead to the implication of our merchants generally. We feel therefore, compelled in justice to the innocent, to publish the list of offenders, as furnished us by the authorities.

The following were fined $10, for selling merchandize on the Sabbath: Messrs. J. F. Fisher, Solomon Bear, I. Oettinger, J. Rosenbaum, L. Rosenthal, M. Rosenbaum, M. Grausman, on Fayetteville Street; M. Grausman, Wilmington St., J. M. Rosenbaum, Jas. M. Harris and A. Kline, Fayetteville St. Mr. Lack was fined $10 for selling spirituous and malt liquor.

AN ERROR.—The Warrenton *Indicator*, in a very favorable notice of Mr. T. H. Hill's late poem, "Willie," errs, no doubt inadvertently, in saying that it first appeared in the Petersburg *Index*. It was first presented to the public through the columns of the *Sentinel*, and the *Index* copied it from the *Sentinel* without indicating where it obtained it, we presume. Mr. Hill has been highly complimented by the extensive circulation it has had and the numerous favorable notices it has received.

ROBBERY.—On last night one or more robbers succeeded in getting into the smoke house of Mr. Thaddeus McGehee, of this city, on Hillsboro Street, and stealing therefrom a portion of its contents. An attempt was first made to force the door; that failing, they succeeded by digging. This is not the first offence. An attempt was made some time since to rob his dwelling, but it was discovered and prevented. Measures have been taken to prevent a recurrence of the kind on that and adjourning blocks. We hope the rogues may be caught.

GOLD.—Senator Richardson, of Montgomery County, showed us a most beautiful nugget of gold, recently found in an undeveloped mine in Montgomery. The value of the nugget is said to be $55 in greenbacks.

Mr. Morehead, of Guilford was not in his seat to-day, in the House, in consequence of indisposition.

We regret to learn of the recent death of Dr. John E. Williamson, a most excellent and valued citizen of Caswell County.

TRINITY COLLEGE.—We are glad that this College has now about 90 students the present session.

For the Sentinel.

North Carolina Railroad.

RALEIGH, N. C., Feb. 18, 1867.

Editors Sentinel:

GENTLEMEN:—I beg you will insert the enclosed communication. It is the same I presented to you at the time it was written, and which you so kindly offered to publish; but in my aversion to appear in print, it has been witheld in the hope that some hand equally concerned, would relieve me. None however, appearing, I feel constrained to reply myself; and, notwithstanding the lapse of time, I have no alteration or amendment to make in what I wrote on the spur of the moment.

Yours, very respectfully,
WALTER GWYNN.

A CARD TO THE PUBLIC, BUT MORE ESPECIALLY TO THE ORIGINAL STOCKHOLDERS OF THE NORTH CAROLINA RAILROAD COMPANY.

RALEIGH, Dec. 19, 1866.

As the North Carolina Railroad was built, and every part of the work let, upon estimates made by me as the Chief Engineer of the Company, I deem it due to myself, but more especially due to the Directors who approved of these estimates, and with whom I acted during the construction of the Road, several of whom have gone to that blissful rest "where the wicked cease from troubling," to notice the remarks of Mr. Turner, of Orange, in the meeting of the Stockholders of the North Carolina Railroad Company, published in the *Sentinel* of the 18th inst. In so doing, I have no new sentences to coin, and no periods to polish. I have simply to avail myself of history. That mirror of the past reflects, arranges, adjusts and composes ready to my hand, all I have to say and all that need be said. It may not be amiss, however, to add that this history was made to meet the identical charges now brought up; for it was apprehended, from the subdued murmurs and stifled utterances of the day, (growing out of an extra judicial opinion of the Chief Justice) that such charges might break forth at some far off, distant period, when all the actors had passed away and no one would be left—no path-finder to track the way they trod,—plain, straight-forward, and direct as it was. We feared some one with "eyes keen, I ween, to see what is not to be seen," would discover some "shadow of turning."

Some of us are now old and well stricken in years. The venerable Judge Saunders, the Nestor of the Board, watched over the affairs and conduct of the Company, with the eyes of an Argus, in all its incipient stages, and all along during the weary days of labor, and toil, and trouble, for five long years, when the work was finished, and crowned with its iron-capped superstructure. He is now stretched on the bed of sickness, never more, it is feared, again to appear among men. The gallant Fisher fell in the thickest of the battle, fighting for the sacred right of self government, and constitutional liberty. "To his memory shed a tear."

Mr. Fries and Mr. Washington, alas! now no more—men known, tried, and approved in their day, were also of the old Board. Gov. Morehead was the President of the Company, in those days. He filled the greatest offices in the State, won by his virtues, with the plaudits and highest meed of praise, from every tongue; as Governor; in his brilliant career at the bar, and in his multifarious private pursuits, he was thrown into contact with thousands, in all the delicate and varied relations which arise as between man and man; and no voice of reproach ever reached him. He, too, is gone; but his memory will not perish. He lives, and will live in the annals of the State, as a great and good man. And, what is still more worth, will live in the hearts of the people, ever honored and revered as a truthful and an honest man.

"An honest man's the noblest work of God,
Go pilgrim, go, pursue the path he trod."

There are also those living whom the State delights to honor, who were Directors during the building of the Road. Such are the men who are charged with defrauding the State of a million of dollars, and putting it in the pockets of the Stockholders, willing recipients and parties to the fraud, (some of them the first men in the State, and all highly respectable men,) for such I understand to be the gravamen of the charge, as set forth in the following extract from Mr. Turner's remarks, above referred to, viz:

"In 1848, [should be 1850,] when the Company was organized, Stockholders were to pay one million and the State two millions. The State paid money, the Stockholders did not.—They paid in work at such liberal prices as to make the Road cost one million more than the original estimate; so we may say the large Stockholders, who paid their subscription of stock in work, instead of money, hold their stock without having paid a dime for it."

"After paying the Stockholders such liberal prices for work, the State was called on for one million of dollars more to complete the Road. She willingly answered the call, and paid out a third million. Three millions would have built the Road, but it cost four millions. The Stockholders and contractors for work getting the fourth million in the way of stock."

"In other words, there was a million given in the way of bounty to those who would do work on the Road."

These are grave charges, deliberately and specifically set forth, reiterated, varied and amplified by a professional hand, somewhat in the form and style of an indictment for homicide from a gunshot wound, with that inevitable and everlasting "certain gun of the value of one dollar." I will leave this old blunderbuss, levelled at shoulder in the hands of Mr. Turner, and without more ado, proceed to refute the unfounded charge that some of the most distinguished men of the State, combined to plunder and defraud her of a million of dollars.—To this end I beg leave to call attention to a communication submitted by Gov. Morehead to the Legislature, Dec. 4th, 1854, in which he says in relation to a comparison of the estimated and actual cost of the Road:

"By the estimates now submitted, it will appear that the Road when fully completed and equipped, will cost as per exhibit, A, $1,235,300, over and above the three millions; it may seem to those who do not understand the subject, that the original estimate of $3,405,132, made by the Chief Engineer and adopted by the Board, was wide of the mark, and erroneous in its calculations.

"If any such impression be made, it is due to the Chief Engineer, and to the Board, with whom I had the honor then to act, in adopting the first estimate, that it be removed. A short examination of the subject will excite surprise at the accuracy of the first estimate.

"That estimate was made to ascertain what sum would be required to construct the Road, and fairly put it in operation, and the Chief Engineer, after estimating that the Road-way would cost $3,165,332, the work shops and fixtures $100,000, proceeds to say—The number of locomotives and their trains depend of course entirely on the amount of business, and may be increased as the wants of the Company require.

"It is not usual to embrace in the original estimates and charge to capital more, than barely sufficient to put the Road into operation, and with inconsiderable additions carry it through and enable it to do the business of the first year. With this restriction, I submit the following estimate, viz:

"The Engineer then estimates for ten locomotives, six passenger, four baggage and eighty burden cars at $139,800 which sum, added to the two preceding sums, gives $3,405,132 for the Road way, equipment and work shops.

"The estimates now presented to you are intended to show what sum will be required to complete the Road, all necessary buildings and appendages, and to equip it in a style commensurate with its importance.

"By these estimates the entire cost will be $4,235,300 (being the whole amount contained in exhibit A) which is $1,235,300 over and above the three millions already subscribed.

"By exhibit A, it will be seen the motive power yet to be contracted for amounts to the sum of $289,600

By reference to the accompanying priuted report, at page 21, will be seen the motive power already contracted for, and the most of which is already received, which may be put down at a cost of 221,150

Thus making the motive power cost $510,750
Deduct estimate for motive power in first estimate 139,800

The increase for motive power is $370,950
To this may be added the estimate for houses, for overseers and hands, which might be, but ought not to be dispensed with, viz: 20,000

Also may be added at least the sum of $20,000, rendered necessary in the estimate for additional sheds, for locomotives and coaches, 20,000

Thus we have the sum of $410,950
contained in the present estimate, which was not intended to be estimated for in the first.

"The extraordinary rise in the price of iron since the first estimate, could only have been seen with a prophetic eye. Of the twenty-three thousand tons bought for this Road, 5,000 tons were purchased before the rise, and 18,000 tons since, at an enhanced price of at least $22 per ton, making the cost for iron at least $396,000 more than was anticipated. Add this sum to to the foregoing sum of $410,950, and we have the sum of $806,950, which being deducted from the present estimate $4,235,300, leaves $3,428,350. Deduct from this the first estimate of $3,405,132, and the sum of $23,218 is left, as the discrepancy as to the cost of the Road-way, between the first estimate, made before the first shovelful of earth was removed, and the second estimate, now made when most of the work is executed. And here let it be remarked, the price of labor and provisions has nearly doubled since the first estimate was made."

"I must be allowed to say again, that the first estimate was remarkable for its accuracy."

In a note appended to "exhibit A," above referred to, the Governor says:

"As the entire expenditure for motive power, Machine Shops, Houses, &c., may not be required for some time to come, the sum of $225,300, might be deducted for the present, leaving one million to be provided for." Upon this representation, the Legislature promptly and unhesitatingly increased the subscription of the State a million of dollars. I might here "rest the case." The charge that "the large Stockholders who paid their subscription of stock in work, instead of money, hold their stock without having paid a dime for it," is effectually nailed to the counter by the communication of Gov. Morehead and the action of the Legislature, based thereupon but, as I may not have another opportunity, I shall proceed to rivit it there.

After quoting, in my report to the Board, January 8th 1856, all that is above transcribed from Gov. Morehead's communication to the Legislature, I proceeded as follows: "I would say, in addition to the above statement, that a change was made in the location near High Point, after the publication of the estimate, which involved an expenditure of $12,000, compensated for by saving half a mile in distance, and the expense of passing through the towns on the line, exceeded the original estimate for expenditures, which could not be foreseen, by the sum of $18,500, making the sum of $30,500, not embraced in the estimate; from which subtract $23,218, reported by Gov. Morehead as the excess of cost over the estimate, and we have $7,282 in favor of the original estimate. That is, the actual cost falls short of the estimated cost $7,282."

Before proceeding further, it is necessary to take a retrospective view. It will be observed, as before stated, that Mr. Turner, in his charges and specifications says, that, "they (the Board) paid in work at such liberal prices as to make the Road cost one million more than the original estimate." Fractions are considered especially vulgar, in finished and polished orations; they have a harsh and discordant sound, they trip on the tongue, break, and ripple the smooth current of flippant declamation; their omision by Mr. T. is therefore pardonable; the euphony of oratory forbade their introduction. Fortunately, *that* history, to which in the outset I proposed to confine myself supplies the omission. As above stated, by Governor Morehead, the original estimate of the cost of the Road was $3,405,132.

The Company was organized, and committed to the work, before the estimate was made, with a capital stock of three millions, one million subscribed by individuals and two millions by the State—$405,132, short of the estimated cost of the Road. As the work drew towards completion, the State subscribed an additional million, (preferred stock,) which covered the deficit, or difference between the original capital stock and estimate, and $584,868, over (and not a million in excess as stated by Mr. Turner,) $396,000, of which was called for as stated by Governor Morehead to meet "the extraordinary rise in the price of iron since the first estimate;" and which as the Governor says: "could only have been seen with a prophetic eye," and the remainder went towards the purchase of twelve locomotives, seven coaches, two hundred freight cars, twenty gravel cars, &c. not embraced in the original estimate, as set forth in "exhibit A" before referred to. Thus it appears that the Stockholders, who were contractors, as well as all other contractors, were paid out of the original estimate of $3,405,132.

Clear and demonstrative as this may be, the subject is not yet exhausted; there is a material point yet, to be more fully met. If I tire the reader's patience, (whoever he may be if a citizen of the State) it must be borne in mind, that I am writing for his vindication; for although the honored dead, the surviving Directors who were associated with them, and every individual Stockholder is more immediately implicated, every man in the State is to some extent aggrieved and injured by the astounding charge—that the public Treasury has been robbed by an association of hundreds of the most respectable citizens, of a million of dollars.

How else could be characterized the payment "in work, at such liberal prices, that the Stockholders hold a million of dollars without paying a dime for it?" It is a downright wilful slander on the whole State. The subject does not admit of brevity. I will therefore continue; and again referring to history, (from which it were well every man should learn to adjust and regulate his own conduct,) I find *none*, as in my report to the Board," Jan. 8th, 1866, illustrating how history respects itself, that "I consider it proper here to remark that the work, though paid for partly in stock—the exact ratio of which I am unable to state, though I believe it may be put down at about two fifths, that is, two of stock to three of cash payments—was originally estimated for, let, and completed at cash prices; and I feel fully justified in stating, that the Road has cost less than if let wholly for cash—for the reason that in cash lettings at the South, the work is generally taken by foreigners, or non-residents, many of whom are mere adventurers, without means or credit, who cannot command an adequate supply of labor in the vicinity of the work, that which they do obtain is at an advanced price, proportionate to the distrust of the parties, and the imported labor still higher; it is apparent that these causes tend greatly to enhance the cost of the work, which, if not provided for in the outset, as is rarely, I may say, never fully done, must lead to a failure, and an abandonment of the contract, with the invariably attendant consequences of delay and increased cost.

'Now, when the work is executed as was the case on the N. C. Railroad, in small contracts (with the exception of the section extending from Goldsboro to a point six miles west of Raleigh) by the people on the line of the Road—no one undertaking more than he can conveniently perform, there is no unworthy jealousy or rivalry and no distrust—friends, neighbors and relations far and wide lend a helping hand—all from one end of the Road to the other being engaged in the same cause, with one object in view, being united in sympathy and kind feelings; what one may lack in labor and means, his more abundantly supplied neighbor will provide.

"The Road furnishes a safe market for the whole country adjacent,—the contractor consumes his own provisions, works his own horses and his own hands—being as it were the purchaser of his own surplus products, and the hirer of his own horses and hands,—finding remuneration and ample recompense in pay received for his work. It follows then as a necessary consequence and it must appear obvious to every one, that the native contractor, resident on the line of the Road and adjacent thereto, can work for a less price than non-residents of the State, who would have to import foreign labor,—and if white labor, as probably it would be, would cost more than slave labor, besides not being so effective (in the Southern country) by at least thirty per cent. My own experience and observation, sustained by that of skillful and experienced contractors, fully justifies me in making this comparison and ratio between white and slave labor in the South. Then, therefore, no hesitation in saying that the North Carolina Railroad, built as it has been in small contracts at the Engineer's estimate, by citizens of the State, residing on the line of the Road, with the native labor of the State, has cost less than if paid for wholly in cash, under the system of public lettings to the lowest bidder."

I have no hesitation in admitting, that the above was written to counteract any injurious impressions that might have been made at the time, or that might arise in the future, from the opinion of one of the Judges of the Supreme Court, heretofore referred to as extra-judicial. In continuance, I will add that the North Carolina Rail Road was built cheaper, in proportion to the amount of work, than any Railroad in the State, and cheaper than any Railroad with which I have any knowledge. While my aim was to give the contractors remunerative prices, and I hope they all realized a profit, "the laborer is worthy of his hire." From the general complaint which Mr. Turner, though not a Stockholder, must have heard, while the work was in progress, I fear many were poorly rewarded. I am confident none of them "held their stock without having paid a dime for it." Although some of the Stockholders, those who had large contracts, might have made a profit equal to, or even exceeding their subscription, it was earned "in the sweat of their faces." I know those who paid for their stock in work, paid its full par value. The original estimate upon which the work was let, was made on the basis of cash payments, and in making up the accounts of the contractors, a duty which devolved upon me, payment in stock, or partly in stock, was never taken into consideration; it had no influence over me, it never entered my mind.

Thus, I have relieved the Directors of the Road, during its construction, and the Stockholders who paid for their stock in cash; the one from the charge of plundering the State of a million of dollars, the other of having been the guilty recipients.

In conclusion, I would observe, in the language of Junius, if in this communication any coarse or harsh expressions have escaped me, I am ready to agree that they were unfit for me to make use of; but I see no reason to admit that they have been improperly applied.

THE SENTINEL.

Thursday Evening, Feb. 21, 1867.

LOCAL DEPARTMENT.

GEN. COLSTON'S LECTURE.—Gen. Colston, Superintendent of the Hillsboro Military Institute, we are pleased to announce, will repeat his Lecture on the Life and Character of Stonewall Jackson, for the benefit of the Ladies' Memorial Association, on to morrow night, (Friday) in the Commons Hall. Admission 50 cts: tickets to be had at the Book Stores, Hotels and Drug Stores.

The Lecture possesses the highest merit, and we hope a large and crowed audience will hear it. It has been hinted to us to suggest, that the *ladies will be sure to go and take all they can with them.*

MISTAKE.—The rumor that Peter Lane, the supposed murderer of Wm. Mayo, had been caught at Goldsboro' or Petersburg, is incorrect. Nothing has been heard from him, and the authorities should make proclamation. Sheriffs, Magistrates, Mayors, Coroners or other officers, ought to lodge official information with the Governor in all cases, when it becomes necessary to make proclamation.

CITY PUMPS.—We are obliged to the city authorities for the information, that the contract for keeping the city pumps for the present year, was let to Mr. J. B. Sugg, at $1,500.

From Washington.

Special Correspondence of the Baltimore Gazette.

WASHINGTON, Feb. 18, 1867.

The excitement was transferred from the Senate to the House this morning. At an early hour it became apparent that there was serious trouble in the Radical ranks. Members clustered around the seat of Mr. Stevens, and it soon leaked out that the bill passed on Sunday morning by the Senate as a substitute for the "Military bill" of the House, however iniquitous and impossible to be satisfactory to those upon whom it is designed to operate, was to be opposed by the extremists of the Radical fanatics. Accordingly, at the expiration of the morning hour the floor was given to Mr. Stevens by the Speaker, and he proceeded to denounce the measure *and moved to non-concur in the action of the Senate and asked for the appointment of a committee of reference.* On this motion he proposed to call the previous question at 4 o'clock.

During the debate, which was monopolized by the Radicals, it was boldly avowed that the present Congress *could not bind its successor*, and that, consequently, even if the Southern people could be induced to adopt the infamous proposition offered, *no reliance whatever could be placed in the adherence of the Fortieth Congress to the plighted faith of the present!* Mr. Stokes implored the House to pass no bill that did not effectually disfranchise the mass of the whites of the South, admitting that the negro vote with universal suffrage, combined with the strength of the whole so-called "Union white men," was in a decided minority even in Tennessee. This proves what, indeed, was well enough known before, that *his* peculiar party there was a myth, and had no existence except in a handful of renegades and itinerants.

At the time I write there is a fair prospect of the defeat of the "Sherman bill" squarely by its final reference to a committee of conference. I learn that with the exception of a very few, the Democrats in the House will cast their votes in this direction. Less interest, however, is felt in this regard since the measure is shamelessly declared to be a mere snare, by its very friends and intended by no means as a proposition in good faith for a final adjustment of our sectional difficulties. Mr. Blain himself, in his brief speech, triumphantly remind d Mr. Stevens that even after acceptance by the South of the terms proposed, it was still left to *another Congress* to pass upon the constitutions of each State separately, and to decide upon *the question of submission!* This is the second proposition made to the South by Congress—*the acceptance of which was known to be impossible.* It is now admitted on all hands that the adoption of the "constitutional amendment" would not have been regarded as satisfactory by the Radicals, who notwithstanding would have refused representation—and it is now announced in advance that even a compliance with the base terms proposed in the present bill would not be sufficient to meet their demands. Mr. Stevens did not hesitate to-day to revive his threats of confiscation and personal punishment. Under such circumstances what confidence can the South place in the faith of such men?

I am assured by personal friends of the President that in the now improbable event of the final passage of the "Sherman bill," it will surely be met by an emphatic veto. If there be any truth in the public speeches or private conversations of the mass of the Radicals in Congress it will not reach him this session. But we shall see what we shall see. It, contrary to all present appearances, this or a similar bill should become a law, then it is a matter of great encouragement to have reason to believe that *the Executive would refuse to execute it.* The Washington *Republican* of this morning, a paper undoubtedly in the confidence of the President, and may be accounted as his official organ, signicantly says:

We did hope that the Senate would inaugurate a measure that the President would be willing to acquiesce in, even if he could not sign it, and which, after it did become law, he could execute. Mr. Sherman's does not seem to us to be such a measure."

With the doctrines avowed by the President, it is hard to see how he *now* could commission a military commander to pull down a State Government in the South, which he has time and again declared to be as legally constituted and possessed of all the attributes of sovereignty in as full vigor as any at the North. Before this resolution is arrested *matters must unquestionably reach this point*, when the different branches of the Goverment will have indeed become antagonistic. Nothing can avert it, save the utter repudiation of the fanatics in Congress by the deluded and misguided people of the North.

The Kentucky Legislature on National Affairs.

FRANKFORT, KY., Febuary 17.—In the Kentucky Legislature the House has passed by a vote of 59 against 23 a joint resolution that the people of Kentucky are unutterably opposed to the movement in Congress to place the people of the Southern States under military rule, the tendency whereof is to military despotism—contrary to the spirit of union, and subversive of the principles whereon the Government was found; and they enter their solemn protest against all such congressional action.

Portions of Arkansas are swarming with wolves. The Searcy, Ark., *Record* says that a negro woman and her child while passing along a mountain road in White county, about two weeks ago, were attacked by wolves and devoured.

From the New York Times (Radical.)

The ultra Radicals are determined that there shall be no reconstruction in the Southern States unless the negroes have universal suffrage and the whites are stripped of suffrage altogether. The Democrats stand ready to help them secure this result. In order to keep their party "record" clear, they refused to make the bill one whit better or more tolerable for the South than the most ultra of the Radicals would make it without them. If they could defeat the bill altogether, there might be some excuse for such an attempt. It is certainly repugnant to their principles and their interests, and no one excepts for it their support. But there is neither sense nor honesty in refusing to *improve* what they cannot *prevent*. By voting with the more moderate and judicious Republicans on preliminary motions and on amendments, the Democrats can make the bill far better than it will be without their aid. If they cannot avert military rule from the South altogether, they can fix a limit to its duration, and leave open for the South a way of escape if they shall find it wise to avail themselves of it. They can secure for the Southern States the chance of a return to civil government—not such a chance, perhaps, as they would deem desirable, but far better than none at all. And above all, they can, if they see fit, avert from the great body of the Southern whites that wholesale, sweeping proscription by which the Radical ultraists hope to deprive them for years to come of all participation in the Government, both National and State, and to vest all political power in the hands of the negroes alone.

A wife in Holly Springs was deserted by her husband, and in the spirit of "revenge" she engaged in business for herself and is now a millionaire in Cubs.

Our Thursday Morning Dispatches.

Congress—Sherman's Bill Amended and passed the House.

WASHINGTON, Feb. 20.

Mr. Sherman's bill came up, and Wilson's amendment was adopted by a vote of 69 to 60. It provides that persons excluded from office by the proposed Constitutional amendment, shall be excluded from voting for members, or being members of the Conventions to form the State Constitutions. Mr. Shellebarger, offered an amendment, declaring that until the rebellious States are admitted to representation, any civil government shall be deemed provisional and subject to the authority of the United States, to be abolished, modified or superceded at any time. And all elections under the civil government are to be conducted by persons described in the fifth Section. No person shall be qualified to hold office under the provisional governments, who is ineligible under the provisions of the third section of the Constitutional amendment of the last session, which was adopted yeas 98, nays 70.

Resolutions to concur in the Senate bill, with the amendments were then passed by 4 vote of 125 to 46.

Hawkins, of Tennessee and Hubbell, were the only Republicans who voted nay.

The army appropriation bill was taken up and adopted, including the section in relation to the General of the army; which contains in addition to the points telegraphed last night, that orders and instructions relating to military operations issued by the President or Secretary of War, shall be issued through the General of the army.

The House went into committee of the whole on internal revenue.

The Senate was engaged on District bills until a message was received from the House announcing the passage of Sherman's bill with the amendments.

Several Senators regretted that the distranchising clause was inserted by the House, but would vote to concur notwithstanding.

Mr. Johnson said that if he had his wish he would immediately receive the Southern representatives, but he would yield to the majority. He would vote for the bill because he saw in it a mode rescuing the country from the perils now threatening it.

From Washington.

WASHINGTON, Feb. 20.

The tenure of office bill was hurried to the President last night to prevent a pocket veto.

A delegation from the Boston Board of Trade had an interview with Secretary McCulloch today relative to the depression in commerce, trade and ship building.

It appears from a communication of the President to the Senate, that the gross proceeds of the sales of cotton amount to $25,500,000. Sales of miscellaneous property $1,800,000. Rents of abandoned property nearly $500,000. Other receipts $2,300,000. Total amount $35,000,000. Nett profit to the United States, $25,000,000.

It is conceded that the Senate will pass Sherman's bill with the House amendments. The increased stringency developed by Wilson's and Shellabarger's amendments is attributed to Stevens' strategy. It is generally conceded that the President will waive the advantages of time, and veto the bill in time for Congress to act.

The Bankrupt Bill.

WASHINGTON, Feb. 21.

GENERAL GRANT.—The correspondent of the Baltimore *Gazette*, speaking of the substitution of the President for General Grant in the Sherman bill, says:

"I have positive information that this alteration was made, not in deference to the Constitution, not because of any disposition to lenity, but for the reason that it was demanded by General Grant himself, who, whatever may be his affiliation with the Radical party, at least disdains to be made the scapegoat of their iniquitous machinations."

MISCEGENATION.—A white man of the age of fifty was married to a negro woman of Courtlandt, Ala., a few days ago. He was ducked in a pond and sent off by railroad by some person or persons unknown.

IS TEXAS A STATE?—In the suit for stolen bonds which Texas is prosecuting in the Supreme Court of the United States, the fact of recovery, says the *World*, hinges wholly upon the question, "Has Texas the existence and powers of a State or not? This method is exactly the right one. It takes the matter of statehood out of the hands of politicians and before the court, whose decision cannot but have weight, if not with the present, certainly with future Congresses."

It is said that some parts of Alabama are actually becoming depopulated. The Marion *Commonwealth*, as cited by an exchange, says the roads to Perry are filled with emigrants, going to the West. Seawell's branch, a mile west of Marion had reflected the camp fires almost every night for a week.

WE OFFER TO THE PUBLIC THIS CELEBRATED Oil, and in doing so we unhesitatingly pronounce it SUPERIOR TO ANY BURNING OIL IN USE. It is Non-Explosive. Free from Grease. It will not grease the hands. It will not soil or grease the clothing. It is more brilliant than Gas. It produces a soft and beautiful light. It is not so trying to the eyes. It can be used in any Kerosene Lamp by adopting our

LIGHT HOUSE OR RACTCHET BURNERS.

It has been most favorably received, and pronounced by judges to be the

THE BEST AND MOST RELIABLE OIL

now in the market; and in consequence of the many serious accidents arising from the EXPLOSION OF KEROSENE, this Oil is extensively known and used in preference.

We are now prepared to furnish the trade with this valuable Oil, and we solicit from the public an examination and trial.

We have on hand a large stock of
LAMPS, BURNERS, CHIMNEYS, WICKS, &c.,
and can supply the trade on liberal terms.

RAW BONE SUPER-PHOSPHATE OF LIME.

Manufactured under the formula originated in 1854 and patented by
BAUGH & SONS,
SOLE PROPRIETORS, AT THE
Delaware River Chemical Works,
PHILADELPHIA, U. S. A.

This old established MANURE is manufactured from Bones that have not been burned or steamed, and it contains all their original organic matter. It is active in its operation, and is a fertilizer of great durability. It does not exhaust the soil like Peruvian Guano, but on the contrary permanently improves it.

Previous to 1861 it was introduced into the Southern States to considerable extent, and again in 1865, where it has been used with remarkable success upon

Cotton, Corn, Tobacco, and all Crops.

A trial will convince any planter of its merits.—Pamphlets containing well-known Southern evidence furnished upon application to New York or Philadelphia offices.

☞ Sold by Dealers in all the principal cities and towns throughout the United States and British Provinces.

FERTILIZERS FOR SPRING CROPS.

WE beg to inform the trade and planters of North Carolina and Virginia, that we are prepared to furnish them with the most approved FERTILIZERS, on the most accommodating terms. We will have a stock of genuine PERUVIAN GUANO, purchased direct from the Agent of the Peruvian Government

We have now in store, for immediate delivery, 325 tons BRADLEY'S SUPER PHOSPHATE OF LIME, which won for itself such an enviable reputation in the Cotton and Tobacco counties of North Carolina and Virginia, last season, proving itself equal, and in many important respects, superior to the Peruvian Guano. We give an analysis of it as ascertained by Dr. Hayes, one of the most eminent Chemists in the country:

Results of Analyses Made of Bradley's Patent Super-Phosphate of Lime, as now sold by Wm. L. Bradley.

100 PARTS CONSIST OF

Moisture	5.30
Prepared animal matter, salts of Ammonia, fatty substances and Humus	38.50
Bone Phosphates of Lime, Magnesia and Iron (soluble Phosphates of do. 16 6-10.)	36.80
Sulphate of Lime	16.50
Salts	20
Insoluble	2.60
	99.90

The animal matter afforded 4 2-10 parts of Ammonia when it was decomposed, and, as will be seen, nearly one-half of the Bone Phosphate is soluble.

After many analyses of your Super-Phosphate of Lime, made during the last few months, I have found your standard of quality full equal to that of any you have ever sold in former years; and I am satisfied that you include the correct principles in the manufacture. Respectfully,

A. A. HAYES, M. D., State Assayer.

Circular Saw-Mill and Machinery Dwelling House and Out Houses, Bridge 240 Feet Long Across Haw River, with about

40 ACRES EXCELLENT LAND.

The Water Power at present improved is sufficient for a large Factory, and the most valuable power is yet unimproved. This property is only two and a half miles from the North Carolina Central Rail Road Shops, and midway between Charlotte and Goldsboro'. It is a valuable location for a Cotton Factory, and one of the cheapest markets for purchasing cotton.

Purchasers are invited to examine the property which they can do by stopping at the Company Shops.

Only one tenth of the purchase money will be required in cash.

LIFE INSURANCE.

MANY insure their lives because they see the folly of neglecting to do so. Many who do not insure argue that it is folly to insure. Which is right? If those who do not insure can cite instances of the harm done by a policy of life Insurance, if they can point out men who have lost $5,000 to $100,000 by Life Insurance, then upon proof of same, we must believe them. Hundreds of instances can readily be shown where parties have been benefitted to this extent.—In North Carolina there are some Widows and Children ready to testify to the good resulting from a life Insurance on their only earthly dependence.

The "Etna Life Co., in loosing $23,000 the past year has relieved want—and now with over $4,000,000 of assets—offers sure protection to all those who will avail themselves of her liberal terms, by calling on

FOR SALE.

ONE THOUSAND ACRES of valuable land, lying on Neuse River, in the County of Johnson, and on both sides of the N. C. R. Road, between Smithfield and Stallings' Depots.

I prefer selling the whole tract to one man, but will cut it into hundred acre tracts to suit purchasers.—To a company of men wishing small farms and pleasant healthy locations, it holds out good inducements, as I will sell on favourable terms. Persons wishing to examine the land, and coming by Rail Road, can be put off the Cars at Vinson's Mill, where they will always find me.

I will also sell a TWENTY HORSE power SAW MILL in good working order, with teams, waggons, and all appurtenances.

1867. "THE WORLD" 1867.

THE ATTENTION OF THE PUBLIC IS INVITED to the claims of "THE WORLD" as one of the leading public journals of the country. It is the chief organ of the Democratic Party of the United States, and the foremost advocate of the immediate restoration of the Union. Its highest merit consists in its character as

An enterprising and Trustworthy Newspaper.

The next year bids fair to be a more critical one in the history of our free institutions, than even any of the eventful ones that have preceded it. The first requisite for an intelligent judgment of public affairs is a full and authentic account of facts as they transpire. These THE WORLD always aims to give with conscientious accuracy, and with equal fullness and fidelity, whether they make for or against its own views of public policy. Prompt activity in spreading before its readers every kind of news in which any part of the public takes an interest, is the first duty of a newspaper, and the facilities of THE WORLD for discharging this obligation are unsurpassed by those of any journal in the United States. Whatever else it may fail in, it certainly will not fail to furnish the news, nor to supply it with such promptitude, spirit, freshness, abundance, variety, accuracy, and candor, that no class of readers can miss anything of interest which they wish to find. THE WORLD will publish documents and arguments prepared by political foes just as freely as those prepared by political friends; making its own comments on them, of course, but never suppressing or garbling them because they are calculated to damage its own party. Adverse arguments which it cannot refute, it is content to leave to make their full impression. THE WORLD adopts this rule because it believes no other is honest; because it conceives that its first duty to its readers is to keep them thoroughly informed on every passing subject of importance.
